#95-5

Dear Mr. Boche:

Approval of the Goodyear New Swivel Design for the Flexsteel Hose

You requested certification of the Goodyear new swivel design for use on the Goodyear Flexsteel inverted coaxial hose assembly on June 22, 1994. The Goodyear Flexsteel hose was CARB approved on September 9, 1993, and is listed in Approval Letter #93-21. A 3/4 inch diameter version of the Flexsteel hose was CARB approved on February 28, 1994, and is listed in Approval Letter #94-4. The new swivel design is applicable to both of these hoses.

As required by the Air Resources Board certification procedures, you requested the approval of the Division of Occupational Safety and Health, the Office of the State Fire Marshal and the Department of Food and Agriculture, Division of Measurement Standards. The necessary approvals have been obtained from these agencies.

I find that the use of the new swivel unit, when installed in accordance with the manufacturer's instructions and the conditions listed in the original Flexsteel approvals, will not adversely affect the performance of the Goodyear Flexsteel hose on which it is installed. Therefore, the Goodyear new swivel design is certified for use with the Goodyear Flexsteel inverted coaxial hose assembly.

Should you have any questions or need further assistance, please contact Mr. Basharat Iqbal at (916) 324-7343 or Ms. Laura Sullivan McKinney at (916) 327-1525.

Sincerely,

A handwritten signature in black ink, appearing to read "James J. Morgester".

James J. Morgester, Chief
Compliance Division
